16. Declaration by Applicant on Unit Trust Loan Financing Risk Disclosure Statement

Investing in a Unit Trust Fund with Borrowed Money Is More Risky than Investing with the Applicant’s Own Savings

- 16.1. The Applicant should assess if loan financing is suitable for the Applicant in light of the Applicant’s objectives, attitude to risk and financial circumstances. The Applicant should be aware of the risks, which would include the following:
- 16.2. The higher the margin of financing (that is, the amount of money the Applicant borrow for every ringgit of the Applicant’s own money which the Applicant put in as deposit or down payment), the greater the loss or gain on the Applicant’s investment.

- 16.3 The Applicant should assess whether the Applicant has the ability to service the repayments on the proposed loan. If the Applicant's loan is a variable rate loan, and if interest rates rise, the Applicant's total repayment amount will be increased.
- 16.4 If unit prices fall beyond a certain level, the Applicant may be asked to provide additional acceptable collateral (where units are used as collateral) or pay additional amounts on top of the Applicant's normal instalments. If the Applicant fail to comply within the time prescribed, the Applicant's units may be sold towards the settlement of the Applicant's loan.
- 16.5 Returns on unit trusts are not guaranteed and may not be earned evenly over time. This means that there may be some years where returns are high and other years where losses are experienced. Whether the Applicant eventually realise a gain or loss may be affected by the timing of the sale of the Applicant's units. The value of units may fall just when you want your money back even though the investment may have done well in the past.
- 16.6 This brief statement cannot disclose all the risks and other aspects of loan financing. The Applicant should therefore carefully study the terms and conditions before the Applicant decide to take a loan. If the Applicant is in doubt about any aspect of this risk disclosure statement or the terms of the loan financing, the Applicant should consult the institution offering the loan.

17. Language

In the event of any inconsistency between the English and Malay language version of the Application, the English language version of the Application shall prevail.
